RulerPanda ring sizer

Print at 100% or Actual size, with Fit to page turned off, and check the scale with a bank card first.

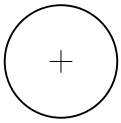

1. Sizing strip

Cut out the strip. Wrap it snugly round the base of your finger, numbers facing out, and read the size where the start line meets the scale. US sizes are above the middle line, UK below, EU in millimetres along it.

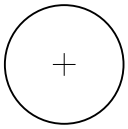

2. Ring circles

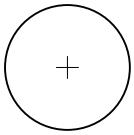

Lay a ring that fits on the circles. Your size is the circle whose edge sits just inside the ring.
